75TH EMU ICONOGRAPHY OF A STYLE A JOURNEY THROUGH CREATIONS THAT HAVE SHAPED OUTDOOR SPACES ALL OVER THE WORLD THE ITALIAN ART OF LIVING IN THE OPEN AIR

In the 75th year since its foundation, EMU celebrates Design as a characteristic feature of its creative and inspirational work. Since the beginning, EMU has redefined the art of living in the open air. A commitment made up of history, tradition, craftsmanship; thanks to the innovation has grown to become a legacy that has shaped outdoor spaces all over the world. Through these collections, we honor the enduring beauty, elegance, and functionality of our furniture, as well as the designers, artisans, and visionaries who have shaped our journey. Not just furnishings, but the creation of indelible memories. We are with you. We are EMU. We think outside.

“Care less about time because our work is timeless”.

L'ICONOGRAFIA DI UNO STILE UN VIAGGIO ATTRAVERSO CREAZIONI CHE HANNO PLASMATO GLI SPAZI ESTERNI DI TUTTO IL MONDO L'ARTE ITALIANA DI VIVERE ALL'ARIA APERTA

Nel 75° anno dalla sua fondazione, EMU celebra il Design come tratto caratteristico del suo lavoro creativo e ispiratore. Fin dall'inizio, EMU ha ridefinito l'arte di vivere all'aria aperta. Un impegno fatto di storia, tradizione, artigianalità; che grazie all'innovazione è cresciuto fino a diventare un'eredità che ha caratterizzato gli spazi esterni di tutto il mondo. Attraverso queste collezioni, onoriamo la bellezza senza tempo, l'eleganza e la funzionalità, così come i designer, gli artigiani visionari che hanno plasmato il nostro viaggio. Non solo arredi, ma la creazione di oggetti indelebili nei ricordi e nella memoria. Noi siamo con voi. Noi siamo EMU. Noi pensiamo fuori dagli schemi.

"Non abbiate paura del tempo perché il nostro lavoro non ne ha”.

L'AZIENDA
OUR COMPANY

75 anni di un lungo percorso fatto di innovazione, qualità, sostenibilità e vocazione internazionale. EMU, l'azienda pioniera nel know how tecnico per la lavorazione e la protezione del metallo, produce arredi outdoor sia per la casa che per il contract, adatti a diverse impostazioni stilistiche, creando ambienti autentici e ideali per vivere gli spazi all'aperto tra comfort, convivialità e relax. Con una spinta e un'intuizione rivoluzionaria, EMU è tra le prime aziende a instaurare una serie di collaborazioni con i più noti creativi e architetti italiani e internazionali, introducendo così il design nel settore outdoor. Profondamente legata alla filosofia produttiva 100% Made in Italy e sempre coerente con la cultura del proprio territorio, l'azienda è presente oggi nel mercato internazionale con una rete distributiva che copre oltre 85 Paesi. Il costante investimento in alta tecnologia, ricerca e automazione, il saper fare italiano e l'internazionalizzazione, oggi si traducono in: 140.000 mq di stabilimento, 3.800 tonnellate di materie prime trasformate annualmente, 450.000 pezzi prodotti ogni anno, 140.000 mq di stabilimento, 3.800 tonnellate di materie prime trasformate.

A 75-year-long journey through innovation, quality, sustainability and international orientation. EMU, a company at the forefront of technical know-how in the processing and protection of metal, produces both domestic and contract outdoor furniture suitable for different styles, to create authentic and ideal environments to enjoy the outdoors with comfort, conviviality, and relaxation. With its revolutionary drive and intuition, EMU was among the first companies to establish a series of collaborations with the most famous Italian and international creators and architects, thus introducing design to the outdoor sector. With its deep commitment to the 100% Made in Italy production philosophy and unwavering faithfulness to the culture of its homeland, the company is currently present on the international market with a distribution network that covers over 85 countries. Constant investments in high technology, research and automation, Italian know-how and international approach translate today into 140,000 square meters of plant, 3,800 tons of raw materials annually processed, 450,000 pieces produced every year.

EMU NEL CONTRACT
EMU IN THE CONTRACT SECTOR

Le caratteristiche degli arredi rendono EMU il partner ideale per tutti gli utilizzi contract. Durevolezza ed affidabilità sono il valore aggiunto di EMU, brand riconosciuto in tutto il mondo come sinonimo di garanzia. Ogni arredo è progettato per resistere alla particolare usura e alle più avverse condizioni atmosferiche. Tutti i prodotti sono sottoposti ad un rigoroso processo di cataforesi per la protezione e finitura dei metalli, che garantisce la longevità all'esterno. La praticità, l'impilabilità, l'utilizzo di un'ampia gamma di tessuti nonché l'estrema funzionalità, confermano l'impiego dei prodotti EMU, rispondendo perfettamente alle esigenze del settore Contract e Hospitality, nelle differenti tipologie di destinazione d'uso.

EMU furnishings' features make the company the ideal partner for all contract uses. A combination of durability and reliability is the added value of EMU and makes the brand recognized as affordable all over the world. Each piece of furniture is designed to withstand to high usage and extreme weather conditions. All our products are subjected to a rigorous cataphoresis process of protection and finishing of metals to ensure long lasting outdoor products. Practicality and stackability wide range of fabrics, even the high functionality performance contribute to making EMU products user-friendly and meets the needs of Contract and Hospitality segments, for the all contexts of use.

EMU E L'AMBIENTE
EMU AND THE ENVIRONMENT

L'impegno che EMU pone verso l'ambiente copre l'intero ciclo di vita del prodotto, dall'impiego di materiali riciclabili al 100% e incombustibili, come l'acciaio e l'alluminio, al riciclo e alla minimizzazione degli scarti. Le collezioni contenenti legno sono realizzate: in teak certificato, ovvero proveniente da foreste gestite in maniera responsabile secondo rigorosi standard ambientali, sociali ed economici; in bambù materiale di origine naturale raccolto senza causare deforestazione. Vernici spray VOC free (Volatile Organic Compound) permettono una diffusione più uniforme e di conseguenza uno spreco minore di prodotto. EMU-Tex, tessuto tecnico per esterni utilizzato per sdraio e lettini, privo di ftalati. HPL, utilizzato per alcuni top, completamente atossico e costituito per il 70% da fonti rinnovabili. La compatibilità ambientale di tutta la gamma EMU è garantita anche dall'impegno nel ridurre costantemente la plastica negli imballi, usando cartone riciclabile dalle dimensioni sempre più contenute. EMU pone particolare attenzione a ridurre il ricorso a energia derivata da fonti fossili, per questo alimenta parte del suo fabbisogno energetico attraverso l'utilizzo di un proprio impianto fotovoltaico da 1 megawatt, con l'intenzione di avviare un progetto per aumentare la copertura. L'azienda ha sempre avuto cura del suo territorio: l'Umbria, Cuore Verde d'Italia.

EMU's dedication to the environment involves the entire life cycle of the product, from the use of 100% recyclable and incombustible materials like steel and aluminium, to waste minimisation and recycling. The collections containing wood are made of certified teak, which means it comes from responsibly managed forests according to rigorous environmental, social, and economic standards; and from bamboo, a material of natural origin harvested without causing deforestation. Spray paints free from VOC (Volatile Organic Compounds) give a more even coating, resulting in less product waste. EMU-Tex, a phthalate-free technical fabric for outdoors, used for deckchairs and sunbeds. HPL, used for some tabletops, completely non-toxic and made from 70% renewable sources. The environmental compatibility of the entire EMU range is also guaranteed by its commitment to constantly reducing the use of plastic in packaging, which is increasingly small and made up of recyclable cardboard. EMU pays particular attention to reducing its reliance on fossil fuel energy. For this reason, it supplies part of its energy needs through the use of its own 1-megawatt photovoltaic system, with the intention of launching a project to increase its energy requirement coverage. The company has always taken care of its home: Umbria, the Green Heart of Italy.

ITALIAN KNOW HOW: UNA GARANZIA DI QUALITÀ
ITALIAN KNOW-HOW: GUARANTEED QUALITY

Profondamente legata alla filosofia produttiva Made in Italy e coerente con la cultura del proprio territorio, l'azienda realizza e controlla tutte le fasi della fabbricazione nel suo stabilimento di Marsciano, nel cuore dell'Umbria, e coordina nelle altre sedi tutte le fasi produttive in un network integrato secondo i più moderni modelli di organizzazione. Un rigoroso monitoraggio che parte dai test durante la progettazione e lavorazione, passa attraverso i processi di cataforesi e verniciatura e arriva alla validazione del prodotto finito, assicurando arredi con un lungo ciclo di vita ed una massima resistenza all'utilizzo e agli agenti atmosferici. Infine, tecnici e designer possono trovare, all'interno del Design &Simulation Centre, il luogo ideale per dare impulso alle attività di ricerca e sviluppo. Una cultura che EMU promuove aderendo a progetti universitari ed ospitando frequentemente studenti nel suo reparto di Ricerca & Sviluppo.

EMU is deeply committed to the Made in Italy production philosophy and it is consistent with the culture of its territory. The company carries out and monitors all stages of manufacture at its factory in Marsciano in the heart of Umbria, and coordinates all production stages at its other sites, in an integrated network that follows the most modern organisation models. Strict monitoring is conducted, starting with tests during design and manufacturing, continuing through the processes of cataphoresis and painting, all the way up to the validation of the finished product. These steps make furnishing solutions that ensure the products' long life cycle and excellent resistance against weather conditions.Finally, the Design & Simulation Centre is the ideal place for engineers and designers to boost research and development. This is a culture that EMU promotes by joining university projects and by hosting students, offering them a professional experience in its

MATERIALI—MATERIALS

Icona	Descrizione	Note
40 FE	Acciaio—Steel	Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con l'esclusivo processo anticorrosione EMU-Coat. Iron and carbon alloy, with carbon content below 2%, treated to withstand the weather conditions with the unique EMU-coating treatment.
41 ALU	Alluminio—Aluminium	Leghe di alluminio, particolarmente idonee per la lavorazione a freddo e per la pressofusione, trattate opportunamente per resistere agli agenti atmosferici e verniciate a polvere. Powder coated aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the weather conditions.
50 FOR	Legno—Wood	Materiale naturale derivato da specie vegetali. Il bambù è un materiale derivato dalla pianta di bambù. Il teak è un legno duro ad alto contenuto di olio adatto all'uso esterno senza necessità di trattamento di verniciatura. Il teak utilizzato per i prodotti EMU è certificato. Natural material obtained from plant species. Bamboo is a material obtained from the bamboo plant. Teak is a hard wood with a high oil content suitable for outdoor use, without the need for painting. The teak used for EMU products is certified.

INFORMAZIONI—INFORMATION

Icona	Descrizione	Note
	Riciclabilità—Recyclability	Indica che il materiale è recuperabile e riutilizzabile per la produzione di un nuovo prodotto. Schede reciclabilità disponibili all'interno della sezione "Prodotti" del sito www.emu.it. Indicates that the material is recyclable and reusable for the production of a new product. Recycling data sheets available on "Products" area of www.emu.it.
	Configurabile sul sito Configurable on website	Indica che il prodotto può essere personalizzato e visualizzato sul sito con le diverse combinazioni di colori e tessuti. Indicates that the product can be customized and seen on the website with the different combinations of colors and fabrics.

INFORMAZIONI TECNICHE—TECHNICAL INFORMATIONS

Icona	Descrizione	Note
	Trattamento Treatment	La lettera C accanto all'icona indica che l'acciaio ha ricevuto un trattamento superficiale protettivo di cataforesi. La lettera Z accanto all'icona indica che l'acciaio ha ricevuto un trattamento superficiale protettivo di zincatura. The letter C next to the icon indicates that the steel surface has received a protective cataphoresis treatment. The letter Z next to the icon indicates that the steel surface has received a protective galvanizing treatment.
	Carico statico (in Kg) Static load (in Kg)	Per le sedute si riferisce al carico statico esercitato sulla singola seduta, per i tavoli alla forza esercitata in punti prestabiliti del piano. È previsto dai test comunitari inerenti ai requisiti meccanici dei prodotti. For the seating this refers to the static load applied to the single seat, and for the table to the force applied to pre-established points of the table-top. It is required to be compliant to the international standards in terms of mechanical performances.
	Resistente all'esterno Resistant to outdoor exposure	
	Cuscino seduta+schienale Seat+back cushion	Indica che al prodotto può essere abbinato il cuscino seduta + schienale. Indicates that a seat-back cushion can be combined with the product.
	Cuscino seduta Seat cushion	Indica che al prodotto può essere abbinato il cuscino seduta. Indicates that a seat cushion can be combined with the product.
	Cuscino schienale Back cushion	Indica che al prodotto può essere abbinato il cuscino schienale. Indicates that a back cushion can be combined with the product.
	Piano in cristallo Glass top	Indica che al prodotto può essere abbinato il piano in cristallo. Indicates that a glass top can be combined with the product.
	Impilabile Stackable	Il numero accanto all'icona indica il numero massimo di sedie impilabili. The number at the top gives the maximum number of products that can be stacked.
	Pieghevole—Foldable	
	Reclinabile—Reclining	
	Allungabile—Extensible	
	Abbattibile—Collapsible	
	Cover	Indica che al prodotto può essere abbinato il telo di protezione. Indicates that a matching protective cover can be combined with the product.
IP	Codice IP—IP code	Il codice IP (International Protection) indica il grado di protezione degli involucri dei dispositivi elettrici ed elettronici contro la penetrazione di agenti esterni di natura solida o liquida. The International Protection code (IP) indicates the degree of protection of electrical and eletronic device, casings against the penetration of solid or liquid external agents.
UPF	Protezione raggi UV UV ray protection	Il numero accanto all'icona indica il valore di protezione del prodotto ai raggi ultravioletti secondo la classificazione UPF. The number on the right indicates the UV rays protection of the product in the UPF range.
FSC	FSC® C006211	Elenco codici contenenti materiali certificati FSC®. List of codes containing FSC® certified materials.

SEDUTE
SEATINGS

Le sedute EMU sono concepite per una straordinaria esperienza e fruizione, reinterpretando con carattere gli spazi sia esterni che interni. La loro trasversalità per design, materiale e funzionalità, permette di scegliere tra molteplici soluzioni: sedute impilabili e pieghevoli, con o senza braccioli, con cuscini dedicati e diverse finiture. Le sedie EMU, certificate da enti riconosciuti a livello internazionale, sono una sintesi perfetta tra tecnologia, estetica e comfort, una garanzia di eccezionale prestazione, anche nell'utilizzo prolungato e in condizioni atmosferiche estreme.

EMU seatings are designed to enhance the user experience and reimagine indoor and outdoor spaces with style. The large appeal of the design, materials and functions allows to choose among several solutions: stackabe or foldable seatings with or without armrests, with specific cushions and various finishes. EMU chairs are certified by internationally recognized authorities and provide the perfect combination of technology, aesthetics and comfort to ensure performance over many years in extreme weather conditions.

PLUS

• Sedile in lamiera stirata prezincata a caldo saldato al tondino di struttura. Tale unico pezzo viene successivamente cataforizzato per aumentare la resistenza all'ossidazione anche nei punti più critici.
The seat made of pre hot-dip zinced expanded sheet is welded to the bar frame. This single piece is then cataphorised to increase the resistance to oxidation even on the most critical points.
• Sottopiedi in nylon trasparente per maggiore stabilità su suolo irregolare, elementi comuni a sedute, tavoli e vasi.
The transparent nylon feet for a better stability on irregular floor are common elements for seats, tables and vases.
• Cuscino sedile con sistema di fissaggio in velcro.—Seat cushion with velcro fastening system.
• Cuscini sfoderabili e lavabili.—Removable cover and washable cushions.

PLUS

• Al caratteristico design del prodotto si aggiunge la nota naturale e sofisticata del teak che apre a un utilizzo più trasversale anche in ambienti indoor.—The natural and sophisticated teak nuance enhances the characteristic design of the product and makes the collection even more suitable to indoor spaces.

• Il sedile in teak si dimostra particolarmente performante in ambienti dai climi caldi dove si predilige tale tipo di materiale a contatto in suo con l'utilizzatore.—The seat teak version mostly fits to hot weather locations that requires no metal part touching the user.

PLUS

• Collezione completa di arredi dining e lounge disponibile in versione full teak e alluminio/teak. L'esistenza di due versioni permette di mixare prodotti e materiali con stili omogenei per arredare diversi ambienti.—Twins is a complete teak and aluminium/teak collection composed of dining and lounge products. The two versions allow to furnish different spaces mixing products and materials in a coordinated style.
• Sapiente lavorazione del teak per creare un design connotante in tale segmento di mercato.—Skillful teak manufacturing that defines a distinguishing design in this market segment.
• Il prodotto in teak è maggiormente funzionale in ambienti e climi particolarmente caldi, che prediligono l'utilizzo di prodotti che non hanno metallo a contatto e ben si presta ad utilizzi in zone marine e su imbarcazioni.—Teak version mostly fits to hot weather locations that require no metal part touching the user and is particularly suitable to marine environments and boats.
• Le sedute dining possono ospitare un cuscino seduta C/6051 o un cuscino seduta e schienale C/6052. Il primo, in versione solo seduta, è dotato di un pratico sistema di fissaggio in velcro. Il secondo, nella versione sedile e schienale, viene fissato alla seduta tramite dei laccetti e allo schienale tramite asola posteriore. Entrambi sono disponibili in una vasta gamma di tessuti. C/6051 seat cushion and C/6052 seat and back cushion can dress the dining seats. The first one has a handy velcro fastening system, the second one is fastened to the seat with laces and to the back with a fabrics rear bend. They are both available in a wide fabric range.
• Sottopiedi in nylon.—Nylon feet.

TAVOLI A 4 GAMBE
4-LEGGED TABLES

Allungabili, impilabili, di differenti altezze, colori e abbinamenti: EMU offre un'ampia scelta di tavoli a 4 gambe che soddisfano i massimi requisiti qualitativi in termini di resistenza, estetica e funzionalità. Il design trasversale di questi tavoli è studiato per creare diversi abbinamenti con le varie sedute EMU. Inoltre, i piani sono realizzati con materiali innovativi e possono avere più dimensioni e forme, mentre le gambe, autolivellanti o con sottopiede regolabile, assicurano comfort e stabilità sulle superfici irregolari.

Extensible, stackable, with different heights, colors and combinations: EMU offers a wide range of high-quality, aesthetically pleasing and functional 4-legged tables. The concept design behind is to create many combinations with EMU seating collections. Furthermore, the innovative materials used for the table tops come in numerous sizes and shapes, whereas the self levelling legs or legs with adjustable feet ensure comfort and stability especially on uneven surfaces.

CENTRAL POLE TABLES

Disponibili in dimensioni, materiali e colori differenti, i tavoli con struttura a palo centrale conferiscono all'ambiente un'estetica pulita ed elegante. Per una soluzione salvaspazio, questa tipologia di tavolo prevede piani abbattibili. I pali centrali, con sezioni quadrate e rotonde, vengono abbinati con basamenti anch'essi disponibili in più forme e completati con un'ampia scelta di piani.

Available in different sizes, materials and colors, our tables with a central pole frame ensure the space a feeling of elegance and clean lines. This type of table also offers space-saving solutions with collapsible tops. The central pole with square and round sections is matched with round, square and cross-shaped bases, completed with a wide selection of table tops.

PLUS

• Il divano 2 posti e la poltrona lounge sono leggeri e maneggevoli grazie all'utilizzo dell'alluminio come materiale portante e delle cinghie di seduta, intrecciate e fissate come da soluzione tecnica esclusiva e brevettata da EMU.
The 2-seater sofa and lounge chair are light and easy to handle thanks to the use of aluminium as main material and seat belts, woven and fixed as the exclusive technical solution patented by EMU.

• I cuscini sono sfoderabili e disponibili in un'ampia gamma di tessuti.—The cushions have removable covers and are available in a wide range of fabrics.

• Il cuscino schienale è composta da uno strato superiore di fiocchi di poliestere e sostenuto da uno strato inferiore di poliuretano espanso. Il cuscino sedile è costituito da poliuretano di due diverse densità ed è fissato alla seduta anteriormente tramite pratico sistema.—The back cushion is made of an upper layer of polyester wads, supported by a lower layer of polyurethane foam. The seat cushion is made of polyurethane of two different densities and is fixed to the seat at the front using a practical system.

• C/9044 kit 2 cuscini bracciolo: cuscini braccioli disponibili come optional per una versione ricca e dal comfort massimo. Tali cuscini di fissano alla seduta tramite appositi particolari.—C/9044 kit of 2 armrest cushions: armrest cushions available as an option for a rich version with maximum comfort. These cushions are fixed to the seat using special details.

• C/9044, C/9045, C/9046 sono sfoderabili.—C/9044, C/9045, C/9046 are cover removable cushions.

• Ispirazione neoclassica che qualifica la collezione per differenti destinazioni d'uso di tipologia contract, sia dining che lounge.
Neoclassical inspiration that qualifies the collection for different contract uses, whether dining or lounge.

PLUS

• Struttura realizzata interamente in tubolare a sezione rettangolare in acciaio inossidabile AISI 304, sagomato tramite robot curvatubi di precisione e tagliato tramite tecnologia laser al fine di creare corrispondenze e incastri tra tubolari molto precisi e disegnati.—Frame entirely made of rectangular profile pipe in AISI 304 stainless steel, shaped by precision tube bending robots and cut by laser technology, to create precise junctions between the tubulars.

• Possibilità di creare molteplici combinazioni adatte a diverse funzionalità e contesti di utilizzo.
Multiple combinations suitable for different functions and contexts of use.

• Varietà di composizioni possibili grazie all'eventuale utilizzo del modulo bracciolo e del relativo cuscino: ciascun elemento lounge, che sia una poltrona, un divano a due posti o una composizione angolare, può vivere in una forma più snella senza braccioli, o in una forma più ricca che li comprenda.—Variety of possible compositions thanks to the use of the armrest and its cushion: each element, either an armchair, a two-seater sofa, or a corner composition, can be assembled with or without armrests, thus obtaining a more essential composition or a richer one.

• Flessibilità e componibilità dei vari elementi imbottiti.—Flexibility and modularity of the various upholstered elements.

• Acciaio inossidabile come materiale principale, a contesti marini e all'utilizzo su imbarcazioni.
The main material is stainless steel, suitable to marine environment and boats.

• Cuscini sfoderabili e personalizzabili in un'ampia gamma di tessuti.—Cushions are cover removable and customizable, available in a wide range of fabrics.

• Imbottitura interna in gomma poliuretanica di diverse densità unita ad uno strato di resinato accoppiato. Le densità variano tra i vari cuscini (intesi come cuscino sedile, cuscino schienale e cuscino bracciolo), al fine di studiare il bilanciamento migliore tra comfort e sostegno di ogni tipologia di cuscino.—Inner padding in polyurethane rubber of different densities combined with a layer of bonded resin. The densities vary between the cushions (intended as seat cushions, back cushions, and armrest cushions), in order to achieve the best balance between comfort and support for each type of cushion.

• L'antislittamento del cuscino in uso è garantito non solo dallo strato di antiscivolo inferiore ma soprattutto da un sistema di aggancio tramite un elemento elastico che permettono l'incastro del cuscino sulle due asole presenti nella struttura di seduta.—The cushion anti-slip is guaranteed not only by the lower non-slip layer but above all by a hooking system made of an elastic element that allows the cushion to fit onto the two slots present in the seat frame.

PLUS

• Trasversalità ai contesti d'uso contract e privati.—Versatility in terms of use in contract and private settings.
• Sedute ampie e confortevoli, anche grazie ad un unico cuscino sedile anche nel divano a due posti e tre posti.—Wide, comfortable seats, thanks in part to the use of a single seat cushion even for the two- and three-seater sofas.
• Cuscini schienale che trasmettono una percezione di ariosità grazie alla loro flessibilità di utilizzo.
Backrest cushions which give a sense of airiness thanks to their flexibility of use.
• Cuscini sedile e schienale sfoderabili, disponibili in un'ampia gamma di tessuti.—Seat and backrest cushions with removable covers, available in a wide range of fabrics.
• Gli angoli della struttura base sono esteticamente molto puliti, grazie ad un taglio laser di tubi e successiva molatura dell'area interessata.—The angles of the base frame are extremely clean in their aesthetics, thanks to the laser-cutting used for the tubes followed by grinding of the area involved.
• Piede regolabile per adattarsi a superfici di appoggio non uniformi.
Adjustable feet for use on uneven surfaces.
• Possibilità di combinare, in una stessa soluzione di arredo divani e poltrone sia nella versione in tubo che nella versione in wicker, per avere soluzioni di arredo armoniche e con alternative di prezzo segmentate.
Both the metal tube and wicker versions of sofas and armchairs can be combined in the same furnishing solution, for harmonious results at different price alternatives.
• Dimensioni confortevoli ma compatte, per meglio adattarsi in contesti che richiedono funzione ma con spazi ridotti.—Comfortable yet compact dimensions, to better adapt to settings that require functionality in a smaller area.
• Forma del bracciolo che permette di sfruttare tutta la larghezza della seduta così da avere delle superfici molto comode.—The form of the armrest allows the full length of the seat to be utilised, for an extremely comfortable surface.
• Identità e look and feel "naturalistico" del prodotto per meglio avvicinarsi in determinati stili e contesti.
"Naturalistic" identity, look and feel, to better suit certain styles and settings.

PLUS

• Gli arredi lounge completano la collezione e permettono di vestire destinazioni d'uso quali portici, patii, bordi piscina nonchè ambienti marini con un'offerta variegata e segmentata.
Lounge products complete the collection and allow to furnish several environments as porches, patios, poolsides and marine environments with a segmented and various range.
• Le componenti in teak (ad esempio le singole stecche del sedile, il bracciolo) sono in teak massello ossia sono modellate da un unico pezzo di legno e non da listelli incollati; queste rende i prodotti più affidabili, di maggior pregio e qualità.—Teak elements (e.g. seat slats, armrest) are made by solid teak rather than by glued laths; this feature makes the products more reliable, valuable and high quality.
• Teak certificato di qualità A.
Grade-A certified teak.
• Ogni elemento in teak ha venature e colori che possono variare tra componente e componente. Questa caratteristica ne determina l'unicità.—Teak components have veining effect and color slightly different between each other and this difference defines the uniqueness of every single piece of furniture.
• Viteria in acciaio inossidabile a scomparsa che rafforza la tenuta del prodotto rispetto all'utilizzo della sola colla.
Stainless steel hidden screws enhance the strongness of the frame more than the only use of glue.

PLUS

• I cuscini di sedile e di schienale sono sfoderabili; l'imbottitura interna è in resinato di due diverse densità, lo strato superiore più soffice e quello inferiore più denso, per aumentare il comfort in uso. La cover dell'imbottitura interna è impermeabile.—The cushions have a completely removable cover; the inner foam has a double density, the above one softer and the lower one thicker, to increase the comfort in use.Its lining is water proof.

• Disponibile una vasta gamma di tessuti.—Available in a wide range of fabrics.

• I cuscini seduta hanno un particolare sistema di fissaggio al sedile che ne limita lo spostamento; c'è inoltre, sul lato inferiore, uno strato antiscivolo per limitare al minimo l'effetto di slittamento fuori dalla seduta.
Seat cushions have an underneath fixing element that prevents the slipping, together with a non-slip layer that avoid the cushion swing out the seat.

• Braccioli resistenti a eventuali sollecitazioni di peso tipiche di un uso improprio.
The armrests are resistant to occasional weight stresses due to an uncorrect use.

• I braccioli possono essere sostituiti e gestiti come pezzi di ricambio.
The armrests could be replaced as a replacement accessory element.

PLUS

• La struttura in alluminio, leggera ma robusta, ne consente l'uso anche in ambienti marini.
The light but strong aluminium frame allows the usage in marine contexts.
• L'esclusivo e brevettato sistema di fissaggio delle cinghie ne permette anche la sostituzione.
The exclusive and patented belts fixing system allows an easy replacement in case of damage.
• Comfort elevato grazie al sistema di cinghie intrecciate che ne consente l'utilizzo senza cuscini.
High comfort thanks to the belts weaving allowing the use without cushions.

COMPLEMENTI
COMPLEMENTS

Cucine, tappeti, luci, sculture di design, divisori, contenitori, fioriere e covers: gli accessori EMU sono complementi di arredo indispensabili in termini di funzionalità ed estetica, pensati anche per le necessità del mondo outdoor contract. La varietà di colori e materiali disponibili li rendono elementi trasversali perfettamente abbinabili a tutte le collezioni, con cui definire e proporre soluzioni di stile total look.

Kitchens, rugs, lights, design sculptures, dividers, containers, planters and covers: EMU accessories are functional and aesthetically pleasing additions to any outdoor contract space. The range of finishes and available materials make for adaptable elements that can easily be paired with all the collections and used to define and propose "total look" style solutions.

PLUS

• Emily è l'outdoor cooking system EMU, un sistema modulare outdoor in alluminio con piano in gres, composto da elementi assemblabili che possono essere utilizzati singolarmente o combinati tra loro.
Emily is the EMU outdoor cooking system, a modular system in aluminum with a porcelain stoneware top, made of assembled elements that can be used individually or combined with each other.
• Possibilità di creare molteplici combinazioni adatte a diverse funzionalità e contesti di utilizzo.
Possibility of creating multiple combinations suitable for different functions and contexts of use.
• Varietà di composizioni creabile grazie alla presenza di vari moduli facilmente assemblabili.
Variety of compositions can be created thanks to the presence of various easily assembled modules.
• Predisposizione al fissaggio tra moduli tramite apposita piastra nascosta sotto il piano, di facile applicazione.
Pre-arranged plate hidden under the top, for easy fastening between modules.
• Ogni modulo viene consegnato già montato, al fine di facilitare la fase di assemblaggio per l'utente finale.
Each module is delivered already assembled, in order to facilitate any process for the end user.
• Ciascun modulo può ospitare elettrodomestici e assolvere le varie funzioni di cottura, lavaggio, barbecue o semplice piano di appoggio.—Each module can house appliances and perform the various functions of cooking, washing, barbecuing, or simple support surface.
• Modulo laterale che, oltre a conferire carattere estetico, rappresenta una zona salvaspazio e di stoccaggio, con sportello apribile da entrambi i lati.—The lateral module gives additional aesthetic character and works as space-saving and storage area, with a door that can be opened from both sides.

CARATTERISTICHE CUSCINI
CUSHIONS CHARACTERISTICS

CARATTERISTICHE TESSUTO ESTERNO DEL CUSCINO
La gamma dei tessuti, che costituiscono la cover esterna, comprende diverse composizioni e diversi trattamenti superficiali che comportano differenti caratteristiche, descritte nelle rispettive schede tecniche.
Verificare i tessuti previsti e le relative schede tecniche nel sito www.emu.it
CARATTERISTICHE FODERA INTERNA IN TESSUTO
Per fodera interna si intende il tessuto che racchiude l'imbottitura. Tale fodera è impermeabile, ossia realizzata con tessuto trattato per resistere alla penetrazione dell'acqua. Questo tipo di trattamento è il massimo grado di protezione dall'acqua per i tessuti, ma sopra una determinata pressione comunque l'acqua può penetrare nel cuscino. Si consiglia quindi di proteggere sempre i cuscini dalla pioggia con le apposite cover e, se bagnati, di sfoderarli (cover esterna) e lasciarli asciugare all'aria e al sole.

CHARACTERISTICS OF THE EXTERNAL CUSHION'S FABRIC
The fabrics range for the external cover includes various compositions and surface treatments involving various characteristics, described in the respective datasheets.
Check the required fabrics and associated datasheets at www.emu.it.
CHARACTERISTICS OF THE FABRIC INNER LINING
The inner lining is the fabric that encloses the padding. This lining is waterproof, it means that the inner cushion cover is made of treated fabric to withstand the flow of water. This type of treatment is the highest degree of water protection for fabric, but above some pressure water may still penetrate the cushion.
It is therefore recommended to always protect the cushions from the rain with their own covers and, if wet, remove the covers (external cover) and leave them out to air and sun dry.

CURA, MANUTENZIONE E AVVERTENZE CUSCINI EMU
CARE, MAINTENANCE AND WARNINGS EMU CUSHIONS

All'interno dell'imballo dei cuscini, uno per ogni imballo, e downoadabile dal sito, c'è una scheda "Cuscini EMU: cura, manutenzione e avvertenze". Questo documento è la fonte ufficiale EMU che contiene le indicazioni di corretta manutenzione.

• Il contatto prolungato con sostanze grasse e/o coloranti può provocare macchie permanenti e deteriorare la struttura del filato. È necessario rimuovere immediatamente tali sostanze prima che arrivino in contatto con la fodera interna.
• In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico.
• Estrarre con delicatezza l'imbottitura utilizzando l'apposita cerniera prima di procedere al lavaggio. Porre particolare attenzione quando si estrae l'imbottitura dal cuscino, per agevolare l'operazione di rimozione piegare l'imbottitura su se stessa. Al termine del lavaggio della fodera, usando lo stesso sistema, reinserire l'imbottitura con cura.
• Prima di avviare il lavaggio, chiudere le zip e chiudere tutti i sistemi di fissaggio in Velcro® facendo aderire le due componenti del Velcro® come se si stesse chiudendo o fissando il cuscino, così da prevenire ogni rischio di danneggiamento del tessuto. Per i cuscini seduta Tami C/770, si consiglia di conservare la protezione in Velcro® apposta sul lembo di fissaggio al momento in cui si riceve il cuscino nuovo imballato e di applicare tale protezione sul lembo stesso quando si effettua il lavaggio della fodera esterna.
• Evitare di lavare fodere di colori differenti nella stessa sessione di lavaggio.
• Lavaggio: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Non usare ammorbidente. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro. Asciugare in modo naturale. Non reinserire l'imbottitura prima della completa asciugatura della fodera.
• Se il cuscino è esposto a pioggia o viene accidentalmente bagnato, si consiglia di metterlo in posizione e zona arieggiate per facilitarne l'asciugatura. In caso in cui la condizione sia più severa, ripetere la stessa operazione ma estraendone l'imbottitura interna, per accelerare il processo di asciugatura.
• Nel caso di periodi di prolungato inutilizzo e/o di rimessaggio invernale dei cuscini, sconsigliamo di utilizzate cover impermeabili per coprire i cuscini e di assicurarsi che gli stessi siano riposti in luoghi arieggiati ed asciutti e rialzati da terra onde prevenire muffe causate dalla condensa di umidità.
• Prima di riporre il prodotto per la stagione di inutilizzo assicurarsi che questo sia completamente asciutto e pulito.
• Tutti i tessuti possono subir un naturale viraggio di colore a seguito di un'esposizione prolungata al sole; tale effetto è da considerarsi normale e varia da tessuto a tessuto.

Inside the packaging of the cushions, one for each package, and downloadable from the website, there is a specific data sheet "EMU cushions: care, upkeep and warnings". This document is the official EMU document for the correct maintenance.

• Prolonged contact with greasy substances and/or dyes can cause permanent stains and deterioration of the yarn structure. It is necessary to remove such substances immediately before they come into contact with the inner lining.
• Cushions used near the seaside or near a swimming pool require more frequent cleaning.
• Carefully remove the padding using the zip before washing. Pay particular attention to removing the cover from the cushion, and fold the cover back on itself to facilitate the process of removal. After having cleaned the cover, reinsert it using the same method.
• Before starting washing, close the zips and close all Velcro® fasteners by adhering the two Velcro® components as if you were closing or fastening the cushion in order to prevent any risk of damage to the fabric. For Tami C/770 seat cushions, it is a recommended to keep the Velcro® protection on the fastening flap when you receive the cushion in its new packaging and to apply the Velcro® to the cushion.
• Avoid washing linings of different colors in the same washing session.
• Washing: follow the material-specific instructions on the washing label. Use water and non-abrasive liquid detergents with a neutral and colorless PH. If required, let the detergent act for a few minutes. Do not use fabric softener. Rinse thoroughly with water at a temperature not exceeding 30°C. When using pressure devices, keep the tip of the diffuser at a distance of at least 60/70 cm from the surface of the item. If necessary, repeat the operation. Do not use abrasive sponges to remove stains and do not treat with bleach or chlorine. Dry naturally. Do not reinsert the upholstery until the cover is completely dry.
• If the cushion is exposed to rain or is accidentally wet, it is recommended to place it in an airy area to facilitate drying. If the condition is more severe, repeat the same operation but removing the inner padding to speed up the drying process.
• In case of prolonged periods of inactivity and/or winter storage of the cushions, we do not recommend using waterproof covers to cover the cushions.
• We recommend to ensure that they are placed in an airy and dry place and also raised off the ground to prevent mould caused by condensation of moisture.
• Make sure the product is completely dry and clean before storing it for the rest of the season.
• All textiles may undergo a natural color change following prolonged exposure to the sun, which is normal and varies from fabric to fabric.

MICROFIBRA—MICROFIBER

100% PES multifilament material particularly resistant for daily use, in nubuck aspect, it has high quality and long-lasting components, characterized by the weaving of polyester fibers having a title equal to or less than 1 dtex.

500/10 CHESNUT

500/11 BLACK

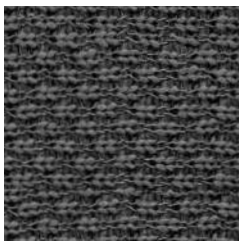

500/12 DARK GREY

EMU MAGLIA SINTETICA—EMU SYNTETHIC MESH

Composite material consisting of PVC (45%), PP (40%) and PES (5%), and constructed using a “Jacquard” double yarn in GG05 two-yarn, fit for out- and indoor use. The two united yarns create a “synthetic mesh” which is soft to the touch, with high technical qualities against microorganisms.

300/30 CHESNUT

300/31 BLACK

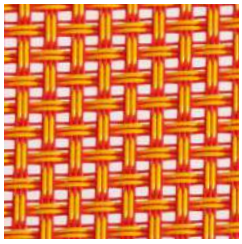

300/32 DARK GREY

EMU-TEX

It is a technical fabric for outdoor use made with polyvinyl chloride thread. It features exceptional strength to ensure durability: maximum resistance to UV rays, the elements, humidity and sudden changes in temperature.

ABS

ABS is a thermoplastic techno-polymer that, once stabilised, well resists even against UV radiation and is therefore suitable to outdoor use. It maintains strong mechanical features even at low temperatures and has high strength, impact and scratch resistance. These features make it ideal for use in a range of sectors, including furnishing.

GRES PORCELLANATO — PORCELAIN STONEWARE

Thanks to its excellent physical and mechanical properties, porcelain stoneware is ideal for outdoor use, since it is resistant to atmospheric corrosion and unaffected by UV exposure. Its qualities allow it to be water-and-oil repellent. Porcelain stoneware is obtained via the synthesizing process of ceramic clay, feldspar, kaolin and sand. These raw materials undergo grinding and atomization until a homogeneous particle size, suitable for pressing, is obtained. Firing takes place at 1150-1250°C for approx. 25-30 minutes in order to determine the ceramization of the mixture, ensuring the typical resistance to abrasion. The colors, veins and shadings of porcelain stoneware vary from piece to piece. Such difference indicates the plus value and the uniqueness of the product.

76 LIGHT GREY

LEGNI—WOODS

BAMBOO - Bamboo is a rapidly growing plant which is collected without causing deforestation. After harvesting, the outermost layer is removed and the bamboo strips are modified using a special thermo-treatment process at 200°C, which increases its stability, ensures protection against fungi and guarantees the highest durability class. After the heat compression process the bamboo fibres become stronger and harder than any existing type of wood. With this specific process you can have a high density hardwood material which is resistant to all weather conditions.
TEAK - Traditional wood used for outdoor furniture with an exotic and timeless appeal. Teak is a hard wood with a high oil content suitable for outdoor use, without the need of painting. If it does not receive any protective treatment, the surface will turn into a silvery-grey finish, the natural protection of the internal part of the wood, considered an essential part of teak's charm. The teak used for EMU products is certified.
USE AND MAINTENANCE - As it is a natural material, it could have different nuances from one product to another or between components of the same product. In case of sudden changes in temperature and humidity, moreover, cracks may also occur. If it does not receive any maintenance treatment with the periodic application of common and specific oil-based protective products, the surface will turn into a silvery-grey finish that can be removed with a light sanding surface and subsequent polishing with an hessian cloth. Small stains caused by oil or other food products must be removed immediately, before the wood absorbs them, by sanding the concerned area and by polishing it with an hessian cloth. Stains from coffee, juices, natural drinks, without food additives, can be promptly removed with water and a soft cloth. When the wood gets wet for the first time, it is normal for the surface to become slightly rough when it dries; the initial polished-effect can be restored with light sanding surface and subsequent polishing with an hessian cloth. Teak is a natural material that absorbs water and is rich in oils. Over time, these oils, by a natural process can rise to the surface and stain the cushions that have been used. Stains on the cushions can be removed using soap and water.

WPC

WPC is a composite material made from wood fibers and HDPE. Semi-finished products are obtained by extruding the composite. This material is resistant to UV rays, atmospheric agents and humidity. WPC does not chip and is not damaged by bacteria or insects. It is a material that requires little maintenance. It does not need to be painted for protection.

TESSUTI BASIC — BASIC FABRICS

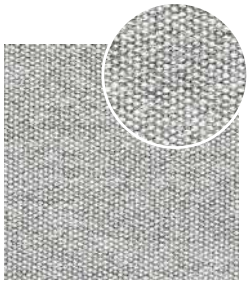

Acrylic fabric: a fibre whose base element is a polymer chain consisting of 85% acrylonitrile. Acrylic fibre combines the aesthetic qualities of a luxurious fabric with the texture and feel of wool with the functional qualities of resistance to the elements: UV resistant, it does not stain and does not rot upon contact with water as it is fast-drying.
